

## EDP Contract Registration, 2011 - 2012

An EDP contract might serve your needs if you know you'll need EDP care on a regular basis. EDP contracts are pre-paid irrevocable advance registration agreements. Please consider using daily registrations if you are not sure of your needs. You can always register for a future contract once you know. Feel free to contact Glynis with any questions you might have.

For each (regular school-day) contract you purchase, you can transfer one registration date to another regular school day within that contract period. (For example, if you purchase Fall Contracts for Mondays and Wednesdays, you can reassign one of the Mondays and one of the Wednesdays to other school days in that contract period for any reason, as long as you do it in advance.)

- Please note that:
- 3-month contracts begin in October to give you the month of September to determine needs.
  - There are four contract periods: September, Fall, Winter, Spring.
  - You can sign up for any contract or change your contract choices anytime before the term begins.
  - All contracts must be pre-paid and submitted before the beginning of the contract term.
  - **You will save \$2 per day using regular day contracts (3-6 pm on school-day afternoons).**
